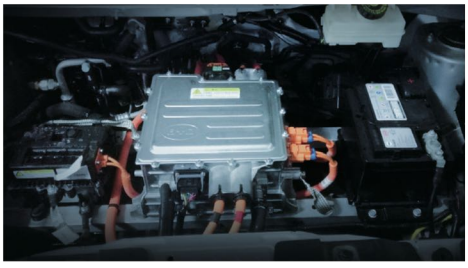
T3 ELECTRIC CARGO VAN

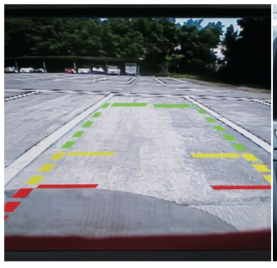
BYD T3 is a pure electric logistics vehicle with low energy consumption and high performance. Its pure electric drive, powerful electric motor, and automatic shift, make it an easy vehicle to operate and maintain. Powered by BYD's propriety Blade Battery with a capacity of 44.9kWh, this silent-running van can run 300km with zero emissions on one single charge. With a 3.8m3 cargo space and 0.8ton payload, BYD T3 meets the transportation needs of most urban logistics systems.

Blade Battery

World' s Most Advanced Battery Technology

The BYD Blade Battery offers superb hot and cold weather performance, fast charging, long lifecycle, and the highest levels of safety in the industry.





Large storage

T3 has a large space of 3.8 cubic meters, creating a flexible storage for multiple uses.

World Leading Efficiency

BYD's world leading automotive electronic control module provides intelligent management and maintenance, further improving efficiency, safety and reliability.

Safety First

The T3 is equipped with reverse camera and seat belt reminders, designed to improve safety for you, and your passengers.
